

Introducing V⁺, Value added displays from Rapiergroup

V.cost effective V.versatile V.different

Need a budget
conscious display
for any environment?

V⁺ is the answer.

We say spend your money wisely and spend less, with V⁺.

It's a creative way to form message environments to suit your needs that don't look like popups...and don't cost the Earth.

Rapiergroup adds the value – through creativity, through project management and through expert delivery. We can help you shape the end result in style.

V. impressive.

Value – the answer to tight budgets with multiple configurations.

Added – use Rapiergroup’s marketing, brand and creative abilities to get the most out of the display you desire.

Display – just what it says on the tin – we can form an impressive display of any kind, in any environment, but not at any price.

The totally versatile V⁺ adapts to any space you need to fill.

See more on the following pages - layouts that have been designed and are delivering value already.

V. flexible **V. dynamic** **V. simple**

Small applications

For 4 to 8sqm spaces

- 01 Whether meet and greet or AV demonstration is your need, V⁺ can do it.
- 02 Raised component floors are available to enhance your display, easy and quick to fit, and cost effective to rent.

In all cases big graphics add brand, message and punch.

01

02

Medium applications

For 9-15sqm spaces.

- 03 Meet and greet and AV demonstration...
- 04 Or perhaps you need a display surface?

Pedestals provide display surfaces for products or demonstrations and reception desks offer meet/greet areas.

And there's those big graphics again - all adding to this medium sized solution...

03

04

Larger configurations

For 20-50sqm spaces

The bigger you get - the better it gets.

- 05 More space gives more opportunity for display of product, AV demonstrations and seating areas...and component raised floors make a difference at this size.
- 06 It fits shell schemes beautifully, and when designed to suit your needs, it makes you stand out from the crowd.

V. simple

So, what is V+? A variety of wall panels in straights and curves, in a range of sizes.

Easy to install – the ¼ turn, + connect makes this simple to put together, so you save on install crew time.

Lightweight – recycled aluminium forms the frames with a thin metal front face for magnetic wall infill overlays – or for overlaid graphics.

Graphics are easy to apply with magnetic strips locking onto the frame face.

Pedestals compliment the system structure, and we have a selection for hire.

Wall mounts are available for AV based displays.

Raised component floors come in fixed tile sizes, raises the effect of your display and allows for wiring under the floor.
